

With parameter Without Return value.

Algorithm :-

Step 1 \rightarrow Start

Step 2 \rightarrow read $a=10, b=20$

Step 3 \rightarrow add(a, b)

Step 4 \rightarrow Stop

function add($\text{int } i, \text{int } j$)

Step 1 \rightarrow Start

Step 2 \rightarrow Int sum

Step 3 \rightarrow $\text{sum} = i + j$

Step 4 \rightarrow Output sum

Step 5 \rightarrow Stop.

Flowchart :-
