

Adarsh . K . M

Flow Algorithm

int main()

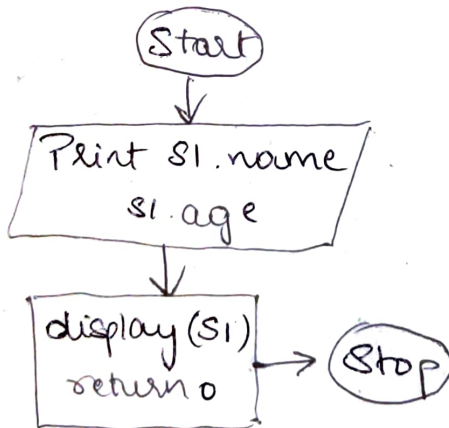

1. Start
2. Struct student s1
3. Read s1, name, s1.age
4. Display(s1)
5. return 0
6. Stop

void display(struct student s)

1. Start
2. Print s.name, s.age
3. Stop

Flowchart

int main()

void display(struct student s)
